Introduction

Purpose

Leech Lake Tribal College (LLTC) has created this guide for program review in an effort to make the ongoing process of program evaluation as easy to understand and carry out as possible. With all the varied tasks that staff and faculty do on a regular basis, having published information in the form of a guide both cements the practice of program review in our continuous improvement process and facilitates the work for all involved.

Participants

While program review is largely carried out by faculty in the evaluation, planning, and improvement of their programs, other staff members are involved in the process. The Curriculum and Assessment Committee, the Dean of Academics, the Finance department and a few other key people all play roles in the successful program review implementation.

Description

Program review consists of a comprehensive self-study of each academic program offered at LLTC on a five-year schedule. The results of the self-study show program strengths, weaknesses, opportunities, and threats. Faculty members can build upon program strengths, analyze weaknesses and develop and plan to improve them, highlight opportunities for growth, and discuss threats to the program.

The self-study is detailed in a report, which is presented orally and in writing at the end of the academic year in the spring to the Curriculum Committee. After review of this report, the committee will decide on the status of the program: maintain, enhance, reconfigure, reduce, or phase out the program. Program faculty will then create a Program Plan with short- and long-term goals to continue the successes and to meet the identified needs of the program or to carry out reduction/phase-out activities.

Connections

Program review is connected to the following essential processes at LLTC:

1. **Accreditation** – The Higher Learning Commission (HLC) is LLTC's accrediting body. HLC requires evidence of regular program review to meet the goals of accreditation, one of which is the evaluation and improvement of teaching and learning.

2. **Academic Planning** – Within each academic department, faculty members annually complete work plans, professional development goals, assessment worksheets, etc. These documents may be used in the Program Plan .
3. **Assessment Data Analysis** – A key part of the Program Plan is data analysis, which is provided to the Assessment Committee from the Director of Assessment and the Director of Enrollment Services (Registrar).
4. **Budget Development** – Academic department and program budgets are informed by the program review. For example, the Program Plan may include future staffing proposals, facility needs, and other resources.
5. **Institutional Research** – Program review is supported by research on internal and external influences on the college.

Potential new programs should work out a schedule of review with the Curriculum Committee.

Program Review Flow Chart

Recommendations from the Review Process

Existing Programs

The Curriculum Committee review of the Program Review Report for each program will result in one of five recommendations for appropriate action:

1. Maintain the program
2. Enhance the program
3. Reconfigure the program
4. Reduce the program
5. Phase out the program

All existing program reviews except those resulting in a recommendation to phase out a program should result in specific recommendations that can enhance a program and ensure that it more effectively and efficiently meets the needs of the students and LLTC's goals.

The Existing Program Review Rubric will be used by the Curriculum Committee in determining their recommendation.

Potential New Programs

The Curriculum Committee review of New Program Proposals will result in one of four recommendations for appropriate action:

1. Adopt the program
2. Enhance the program
3. Reconfigure the program
4. Program not recommended for adoption

All new program reviews except those resulting in a recommendation not to adopt a program should result in specific recommendations that can enhance a program and ensure that it more effectively and efficiently meets the needs of the students and LLTC's goals.

The New Program Review Rubric will be used by the Curriculum Committee in determining their recommendation.

Existing Program Review Rubric

Criteria	Maintain a Program	Enhance a Program	Reconfigure a Program	Reduce or Phase Out a Program
Quality and strength of the program as determined from assessment information	The program's quality is substantial and notable.	The program's quality is substantial but could be strengthened through curricular and/or other program enhancements, e.g. providing additional resources, adding or deleting courses.	The program's quality could be strengthened through reconfiguration, e.g. substantial modification of the curriculum and the reorganization of faculty.	The program's quality and/or contribution to the institution is not substantial enough to justify its continuance.
Enrollment data	The program's enrollment is strong.	The program's enrollment is adequate but could be strengthened.	The program's enrollment needs to be strengthened.	The program's enrollment does not meet the expectations for continuance.
Ability to benefit and positively impact LLTC	Relationships, partnerships, and/or alliances are strong. This Program benefits the overall mission of the college.	Relationships, partnerships, and/or alliances could be developed to strengthen the program.	Relationships, partnerships, and/or alliances need to be reconfigured in order to positively impact the college.	Relationships, partnerships, and/or alliances are not positively impacting the college. The program's reduction or phase-out would not adversely impact other programs.
Cost effectiveness	The program sustains itself and is a financial asset to the college.	The program could provide more financial gain with additional efforts.	The program's financial expenditures need to be reconfigured in order to be more cost effective.	The program is not cost-effective.
Cultural component	The program embeds Native culture throughout the entire curriculum.	The program embeds Native culture throughout the majority (greater than half) of the curriculum.	The program embeds Native culture throughout less than half (1/2) of the curriculum.	Evidence that the program embeds Native culture throughout the entire curriculum is absent or less than ¼ of the curriculum.
