LMS (Learning Management System) LLTC utilizes CANVAS. It is important to continually log into your CANVAS account and your LLTC email account to maintain your presence.

Synchronous online classes are those that require students and instructors to be online at the same time.

Asynchronous classes are just the opposite. Instructors provide reading materials, recorded lectures, tests, and assignments that can be accessed at any time during a specified period as outlined by your instructor.

Hybrid classes are those in which some course instruction and activities take place in the face-to-face classroom (instructor and students together in one location) and some take place online.

HYFLEX hybrid flexible, or HyFlex, course format is an instructional approach that combines face-to-face (F2F) and online learning. Each class session and learning activity is offered in-person and synchronously (ZOOM).
